Speed Skating

Speed Skaters can move at 30 miles per hour--much faster than athletic track runners. In fact, Speed Skating champions are the fastest self-propelled human beings over level earth!

In Speed Skating, two racers skate side-by-side, in separate lanes, as fast as they can go!

- You will be skating against a computer player on the top half of the screen. Your skater is on the bottom half of the screen. Press the **FIRE** button or **SPACE BAR** on the keyboard to begin the count down.
- When the countdown reaches **"GO,"** begin skating by moving the joystick to the **LEFT** and **RIGHT** or pressing the keys **J** and **K**, to move your skater's legs. The trick is to make the skaters legs move back and forth as in real skating
- Continue skating by moving the joystick back and forth or pressing **J** and **K** in rhythmic strokes to move your racer's legs. Build your natural skating rhythm faster to get up to speed--and GO FOR IT!
- The skater with the fastest time wins the race.
- When the race is over, press the **FIRE** button or **SPACE BAR** to begin the next event.

Hot Dog Aerials

This demonstration sport tests your guts, grace and precision on skis. Strive for a performance of athletic artistry as you flip through the air in a dazzling series of daredevil moves.

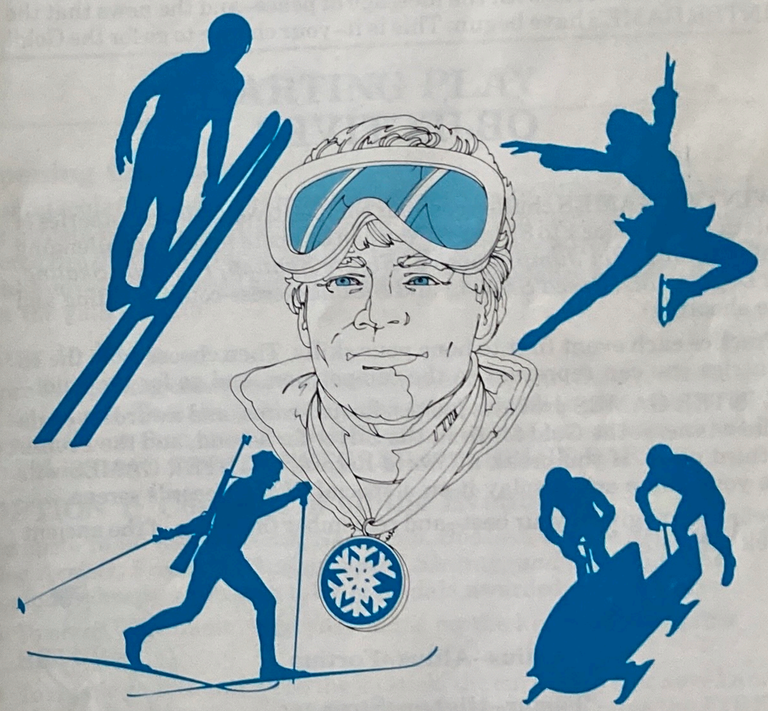
WINTER GAMES™

INSTRUCTION MANUAL

for the Apple®



Game program designed by Action Graphics, Inc.

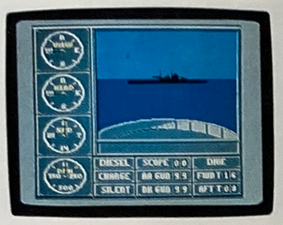
THE MASTERS COLLECTION™

A line of adventures and simulations so sophisticated they are recommended for the advanced game player. Players who appreciate detail and authenticity. Who relish challenge. Who laugh at adversity. This is the serious stuff.

OMNICRON CONSPIRACY™

There is life in the universe so intelligent it can stump you for weeks. For as Captain Ace Powers of the Star Police, you must investigate the phenomenon that transported a renegade starship ten lifetimes away. Instantaneously. It's a search that involves a multitude of interactive characters. A planet-sized computer. High-tech weaponry. And enough strategic intrigue to make your head orbit. So, in the process of investigating the Omnicron mystery, you'll explore another rather awesome area of space. The one between your ears.

One player.
Apple II series/compatibles (double high res.), C64/128, IBM PC/compatibles



SUB BATTLE SIMULATOR™

There've been other sub simulations. But none with the degree of authenticity, gut-wrenching action or historical accuracy of this one. It's got over 200,000 nautical miles to patrol. 60 missions. And any one of six types of American subs or German Kriegsmarine U-Boats to command. You'll be responsible for navigation, radar, and a fiery arsenal. You'll engage in missions ranging from "seek and destroy" to "rendezvous" and "patrol" to the most difficult objective of all: to make it through the entire war.

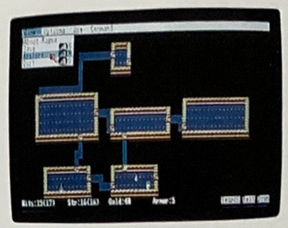
FANTASY·ROLE PLAYING



ROGUE™

One of the great underground adventures of all times. With 26 ominous levels. And one daunting truth: the game is never the same twice. So forget mapping. And concentrate on the maze monster just ahead. Or keep your eyes peeled for trap doors and deadly darts. Your mission is to descend into the Dungeon of Doom, recover The Amulet of Yendor, and make it back to Level 1 with your enchanted sword intact. But be warned: what goes down in this game does not necessarily come back up.

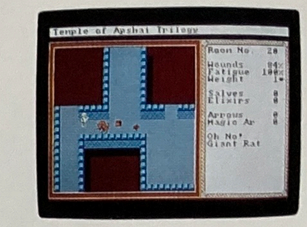
Amiga, Atari ST, IBM PC/compatibles, MAC



TEMPLE OF APSHAI TRILOGY™

Welcome to the world of Apshai, the lost culture beneath the Sahara. A culture that makes "Dune" look like a day at the beach. For to get to the bottom of this trilogy you'll have to descend through 12 hellish levels of mazes. And pass through 600 rooms inhabited by skeletal bats, ghouls, and zombies. Solve the *Temple of Apshai,* and it's on to the impossible challenges of the *Upper Reaches of Apshai.* Finally, there's a desert journey into mythical Egypt in *The Curse of Ra.* Includes an 80-page booklet on Apshai lore.
